aqquatix
equipment for very aqquatix people

FOR OVER 30 YEARS, WE HAVE EMBRACED WATER AS A SOURCE OF HEALTH,

Wellbeing

AND ENTERTAINMENT:
WITH THIS GOAL, WE HAVE DEVELOPED EQUIPMENT AND SOLUTIONS OVER TIME AIMED AT DELIVERING EMOTIONS AND POSITIVE EXPERIENCES FOR PEOPLE OF ALL AGES.

New Functional Circuit

4 new pieces of equipment designed to create a true “functional circuit” in an aquatic environment.

Based on modern isotonic machines, this circuit simulates traditional functional training while offering all the benefits of water: reduced joint stress, increased safety, and effective results.

Ideal for attracting new customer segments—men, young adults under 25, and adults over 55—the circuit is designed to combat sarcopenia and promote muscle health at every age.

New Slim Aquabike

Simplicity is a mark of quality.

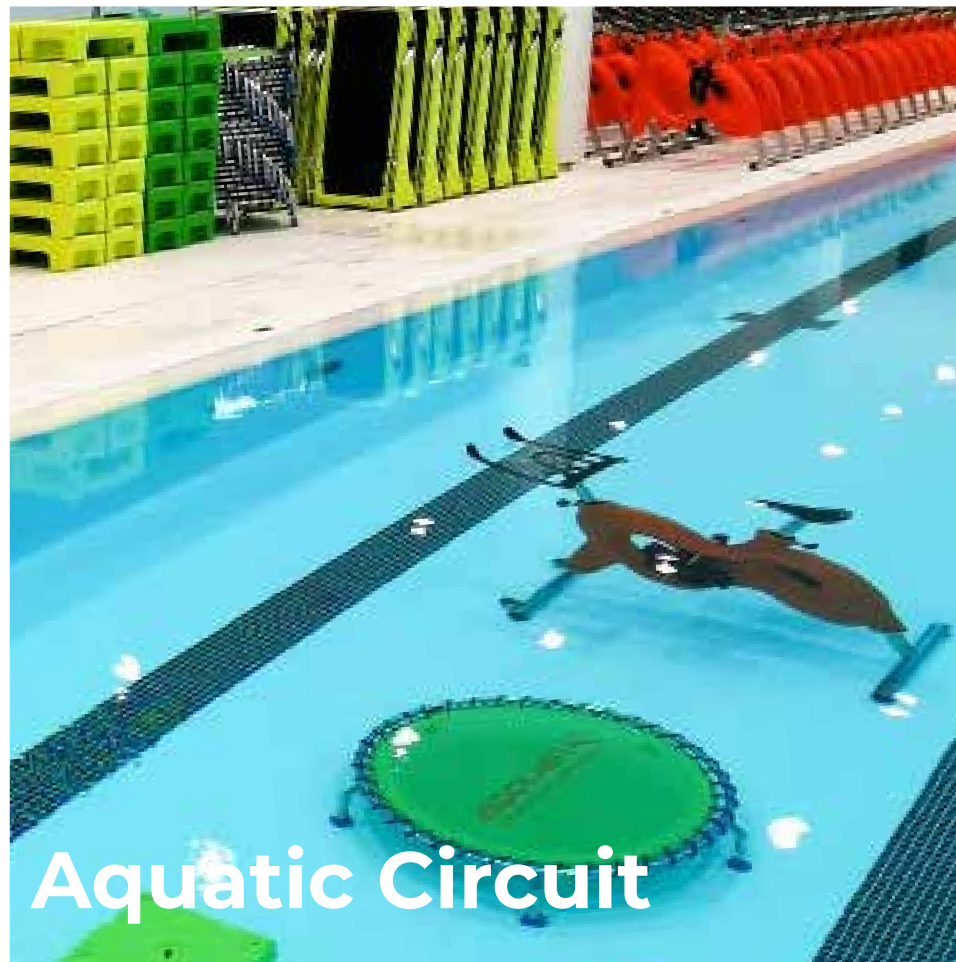

The linear, minimal, and essential design combines practicality and comfort during use, ensuring optimal pedaling ergonomics.

ADVANCED BIG EQUIPMENT

We shape Aqua Emotions

BPM Aquabike

Stationary aquabike with polyethylene shell. Unique design and pedalling intensity adjustment system. Maximum stability during use. Recommended for basic and advanced aquacycling activities.

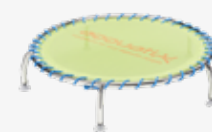

STAR Aquatreadmill

Mechanical treadmill for aquawalking and aquarunning in swimming pools, combining innovation, design, practicality and functionality. It is ideal for an easy and exercising water activity for everyone.

Vertical Dynamic

A small but complete in-water gymnasium that, in its simplicity, is a staple in the equipment of a pool. The tool's versatility is ensured by the VD Combat Bag and VD Power Training Kit accessories.

Round Jump

Fun and multipurpose water trampoline. The large pushing surface together with the elastic response of the net make it a suitable tool for all targets.

The Trend line products

Dumbbells, barbells, gloves and anklets, made in Italy, with a unique and exclusive design and manufactured with top quality materials. Designed to give the best aquatic experience and created to last a long time.

The products of the Basic line

Webbed gloves, floating belts, tubular elastics and elastic bands are the basic items for all vertical activities in the water and beyond. Propose targeted, target-specific activities with quality materials.

The products of the Aqwellness line

Flotation aids, unique and exclusive design, ideal for making water accessible to anyone and in any aquatic environment: swimming pool, spa, rehabilitation centre and even open water.

The products of the Aquarehab line

Articles designed for functional recovery activities in water, exclusive and long-lasting.
